Arrow Natural Gas Generators

Arrow Engine Company is an industry leader in heavy-duty power generation equipment, and with increasing demand for cheaper and cleaner burning fuel more companies are turning to natural gas generators for their power generation needs.

Arrow natural gas generator sets feature a wide assortment of factory options that enable you to customize your generator to match your requirements, including emissions equipment to assist you with environmental and regulatory compliance. Arrow Generator Sets are designed to operate on a wide range of fuels, including natural gas, well-head gas, and pipeline as, while providing maximum fuel efficiency along with low life-cycle costs.

C series & A Series Gensets

Our C-Series and A-Series natural gas generator sets offer many features including:

- Oil bath air cleaner (some models)
- Full flow lube oil filtration
- Pressure lubrication
- Electrical engine speed governor
- 12-volt electric ring-gear starter

Choose from a variety of natural gas engine configurations from our C-Series and A-Series.
