

Surplus Solar Turbines T60

Diesel 5670kW 4160V 60Hz

www.globalpwr.com

Global Power Supply offers two new surplus Solar Taurus 60 gas turbine generators. These units are available immediately for delivery in original packaging, un-used, and located in southern California.

The Taurus 60 gas turbine generator set consists of an axial-flow gas turbine engine, generator, and reduction-drive gearbox. These components are installed in-line on a heavy-steel base frame skid. The skid is a structural steel assembly with beam sections and cross members.

- 5670 kW each
- Gas Turbine Dual Fuel (gas or liquid)
- Voltage: 4160V(60Hz)
- Year: 2013
- 3 Phase
- Turbotronic 4 Control System
- Speed 14951 rpm (60 Hz)
- Compression Ratio 12.2:1
- Reduction gear to Kato generator
- Inlet and exhaust ducting electric motor starting system
- Warranty 8 Months (June 2013)
- Located in California

Generating Solutions for Oil and Gas Industry

GPS provides its customers in the Oil and Gas Industry a complete range of resources, skills, and services for building and maintaining their operations
