

# Cash for your UPS, Generators, HVAC Equipment

## Cash Offers

## Trade-Ins & Upgrades

## Consignments

The primary goal of these asset recovery programs is to deliver additional value to the client and create budget dollars that can help fund new projects or reduce capital requirement for existing programs.

### NATIONWIDE SERVICE

If your company is closing facilities in multiple regions, Global Power's national reach reduces costs by streamlining the vendor selection process and provides a single point of contact for project management.

### CUSTOMIZED SOLUTIONS

GPS develops customized solutions to define scope, timetable, and costs. Our project management team manages all phases of the project, staying abreast of critical path milestones. Transportation, interim storage and deliveries are all part of the package.

### EXPERIENCED PROFESSIONALS

Qualified technicians will carefully execute your onsite decommissioning project. If you want the facility broom swept, we'll patch the walls and paint the floors.

**Our goal is providing timely, effortless solutions.**

Transportation & Logistics

- UPS Systems
- Generators
- Precision Air Conditioning
- Power Distribution
- Electrical Switchgear

Deinstallation, Rigging & Removal

*GPS pays the highest returns on your critical infrastructure equipment*
